

YASHAS H GATTY

Mangaluru, Karnataka, India—575001

+91 6361334462 — yashasgatty0@gmail.com — Portfolio — LinkedIn — GitHub

Summary

Artificial Intelligence and Machine Learning undergraduate with experience building production-facing full-stack applications and intelligent systems. Skilled in React, Node.js, and machine learning workflows with hands-on experience developing scalable interfaces and integrating modern web technologies.

Education

Canara Engineering College

B.E. Artificial Intelligence and Machine Learning

July 2023 – May 2027

Mangalore, Karnataka

Experience

Truck Hai Technologies Pvt. Ltd.

Front-End Intern

Feb 2026 – Present

Remote

- Developed and shipped production-facing frontend features using React, TypeScript, Tailwind CSS, and Vite.
- Converted Figma designs into responsive and reusable UI components and integrated REST APIs.
- Collaborated with developers through Git workflows to deliver and maintain scalable application modules.

Projects

EduCareer — *Sentence-BERT, Graph-BERT, React, TypeScript, FastAPI*

GitHub

- Engineered an AI-powered career guidance platform delivering personalized course, internship, and job recommendations using semantic recommendation and hybrid ranking models.
- Built an OCR and NLP-based timetable analysis pipeline achieving **82.8%** overall system accuracy with **89.2%** skill mapping accuracy and sub-**224 ms** recommendation latency.
- Developed an end-to-end ecosystem integrating resume generation, portfolio verification, and opportunity matching with **96%** task completion rate.

ResumeRoast — *LLMs, React, TypeScript, Node.js, Express, Supabase*

GitHub — Live

- Built a full-stack resume analysis platform that processes uploaded resume PDFs and generates ATS scoring and resume critique.
- Generated actionable resume improvements and measurable impact-driven recommendations through structured feedback workflows.
- Designed resilient backend processing and optimized frontend interactions.

Digital Twin-Based Wildfire Detection

March 2026 – Present

U-Net, TensorFlow, OpenCV, Remote Sensing, Digital Twin

- Developing a Digital Twin-based framework for wildfire detection and spread analysis using remote sensing imagery
- Implementing a U-Net segmentation pipeline for wildfire and vegetation classification.
- Designing a visualization layer integrating segmentation outputs for wildfire risk monitoring.

Technical Skills

Languages: Python, JavaScript, TypeScript, SQL, C

Frontend: React.js, React Native, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, Supabase

AI/ML: Scikit-Learn, TensorFlow, NumPy, Pandas, LLMs

Data Analytics: Power BI, Tableau

Developer Tools: Git, GitHub, Postman, Bruno, VS Code, Docker

Certifications & Publications

- Published Patent: “A System and Method for Unified Career Trajectory Analysis, Adaptive Professional Recommendation, and Automated Resume Management”
