

YASHAS H GATTY

Mangaluru, Karnataka, 575001

+91 6361334462 — yashasgatty0@gmail.com — Portfolio — LinkedIn — GitHub

Education

Canara Engineering College

B.E. Artificial Intelligence and Machine Learning

July 2023 – May 2027

Mangalore, Karnataka

Experience

Truck Hai Technologies Pvt. Ltd.

Software Developer Intern

Feb 2026 – Present

Remote

- Developed production-ready web and mobile features using React, React Native (Expo), TypeScript, Tailwind CSS, and Vite from Figma designs.
- Integrated REST APIs and contributed to the BFF/Assembly layer, debugging authentication, API, mobile, and backend issues.
- Managed Git/GitHub workflows, feature branches, pull requests, and code reviews while collaborating with frontend and backend teams.

Institute of Applied Dermatology (IAD)

Software Developer Intern

Aug 2026 – Sept 2026

Kasaragod, Kerala

- Developed a Hospital Costing and Billing Management System using React, TypeScript, Node.js, Express, and PostgreSQL for patient management, treatment costing, billing, and reports.
- Built RESTful APIs with JWT-based authentication and role-based access control, integrating frontend workflows with PostgreSQL for secure data persistence, validation, and audit logging.
- Designed the system for deployment at IAD branches across India.

Projects

ResumeRoast — LLMs, React, TypeScript, Node.js, Express, Supabase

GitHub — Live

- Built a full-stack AI resume analysis platform using LLMs to process PDF resumes, generate ATS scores, structured critiques, and actionable recommendations.
- Developed resilient backend processing and optimized frontend interactions for automated resume feedback.

EduCareer — Sentence-BERT, Graph-BERT, React, TypeScript, FastAPI

GitHub

- Engineered an AI career guidance platform providing personalized course, internship, and job recommendations using semantic and hybrid ranking models.
- Built an OCR/NLP timetable analysis pipeline achieving **82.8%** system accuracy, **89.2%** skill mapping accuracy, and sub-**224 ms** recommendation latency.
- Integrated resume generation, portfolio verification, and opportunity matching with a **96%** task completion rate.

Digital Twin-Based Wildfire Detection

March 2026 – Present

U-Net, TensorFlow, OpenCV, Remote Sensing, Digital Twin

- Developing a Digital Twin-based wildfire detection and spread analysis framework using remote sensing imagery and U-Net segmentation.
- Designing visualization layers integrating segmentation outputs for wildfire risk monitoring.

Technical Skills

Languages: Python, JavaScript, Golang, SQL, C

Frontend: React.js, React Native, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, Supabase, PostgreSQL

Developer Tools: Git, GitHub, Postman, Bruno, Docker

AI/ML: Scikit-Learn, TensorFlow, NumPy, Pandas, LLMs

Data Analytics: Power BI, Tableau

Certifications & Publications

- **Published Patent:** “A System and Method for Unified Career Trajectory Analysis, Adaptive Professional Recommendation, and Automated Resume Management”
